At a Glance: Evaluate Where You Are Now & Where You Are Heading

Step 1: Review

Review our due diligence checklist to see if you are in compliance [here](#).
CBHM is a One-Stop-Shop training provider for all of your First Aid, Health & Safety, Compliance and Employee Mental Health training needs.

Step 2: Conference Call

Give us a call for a consultation to review your current Health & Safety management system, what you may still need to be in compliance, and your immediate training needs.

Step 3: Take Action

Next step is to send you an estimate with our Affinity Program Pricing, look at which dates work best for the both of us, then have our highly engaging safety professionals certify your employees on-site or at one of our public courses.

Step 4: What's Next?

Now that the training is complete, we will send you the final invoice and your certificates in the mail. If you prefer to have your certificates accessible online, we can set you up on our digital platform, Skillspass. Renewals are typically 3 years.

Step 5: Long-Term Goals

CBHM offers workshops outside of First Aid and Health & Safety that focuses on your employees mental health. CBHM offers the Mental Health Workshop, Compassion Fatigue Workshop and Mental Health First Aid. CBHM has had great success with the Community Livings doing these workshops on a monthly basis.
