\* Session Description (300 words max.)

\* How does your session align with our overall theme of "**Inspiring Possibilities**"?

\* Community Living Ontario envisions a society where people who have an intellectual disability belong, have equal rights, respect and acceptance, a sense of self-worth and opportunities for growth. The gifts, uniqueness and innate value of each individual are celebrated, supported and acknowledged as essential to the completeness of the whole community.

How does your session align with this statement?

\* Will your presentation address the intersection(s) of disability with race, gender, class, sexuality, and other social categories in relation to your topic? If so, how?

\* What makes your session unique?

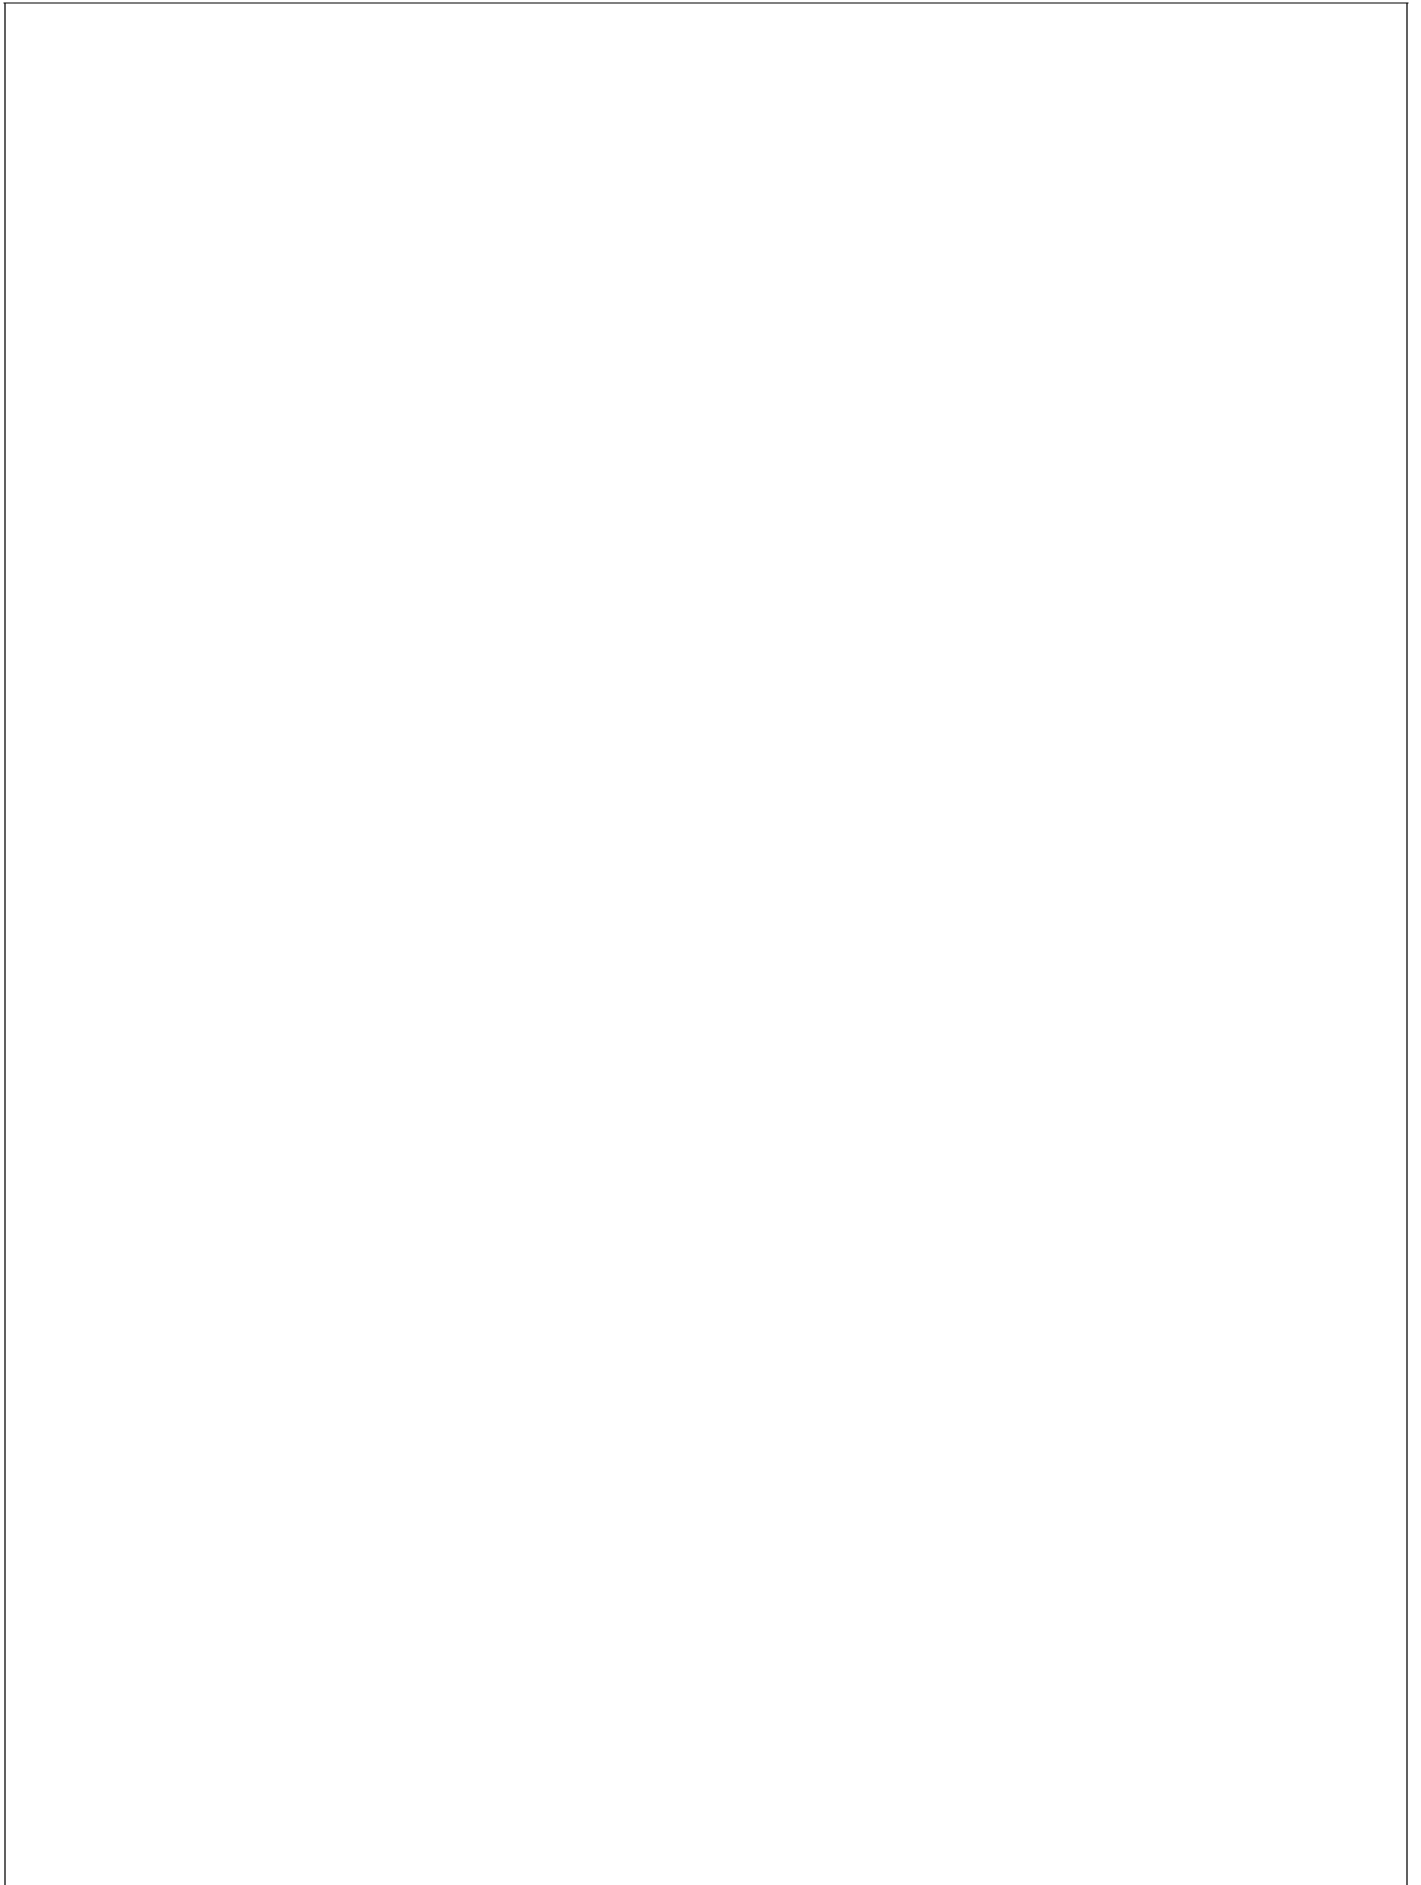

\* Please describe your session's top 3–4 takeaway messages.

\* Community Living Ontario strives to host inclusive, accessible events that give everyone the ability to fully participate. In order to ensure each presentation is accessible as possible, presentation decks will need to be provided to CLO **3 weeks in advance of the conference**, with alternative text for images and closed captions for video content. We also request that plain language be used to convey important parts of your presentation whenever possible. Confirmed speakers will be given resources and guidance on how to prepare and deliver sessions with accessibility at the forefront.

Please indicate if you are able to meet these expectations.

 No

\* This year we are hoping to host a "hybrid" in-person/virtual event. How will your session address the challenges — or take advantage of the opportunities — presented by this format? And, in the event that we are not able to host an in-person gathering, how will you adapt your session to an entirely virtual format?
